BATTLETOADS™

WARTSNALL!

BATTLETOADS™ are wild, wacky, warty and definitely fun to know - three archetypal American adolescents in the guise of seven foot tall toads!

With Professor T. Bird™ at the helm of the spaceship Vulture™, the Battletoads™ - Zitz™, Rash™ and Pimple™ - race to reach the center of the universe ahead of the evil Dark Queen - in an adventure which spans the cosmos, takes you to the very limits of your imagination - and beyond...

LET'S EAT!

*ZITZ™ is the smartest thing on
webbed feet - a toad tactician, he is
the team's planner and natural leader.*

BATTLETOADS™ FACT FILE

Name: ZITZ™ **Age:** (?) **Height:** 6' 8"

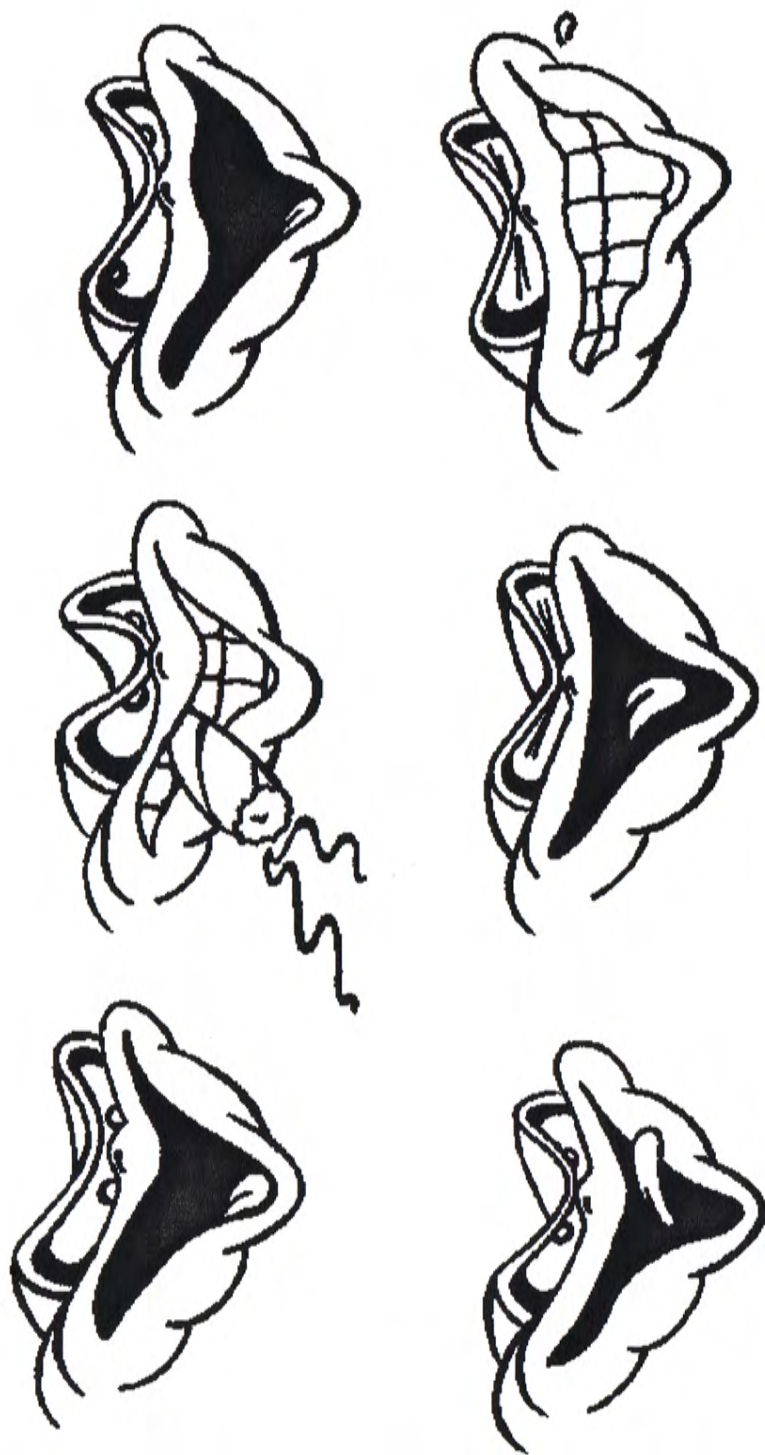

Weight: 303 lbs **Hair:** None **Eyes:** Amphibian

Outstanding features: Green and warty skin; wears a wrist-computer, utility-belt, gloves and studded knee-pads

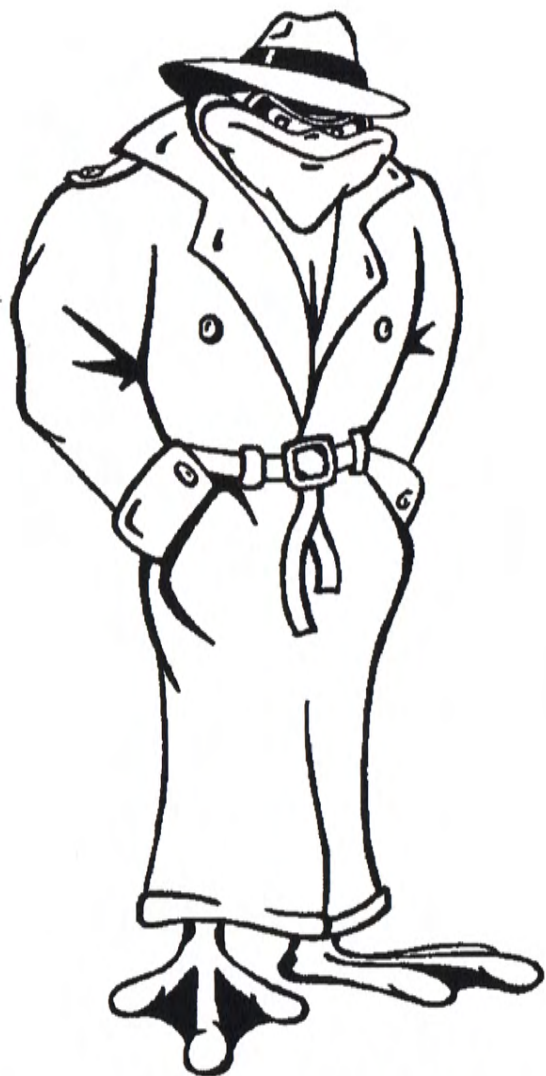

History: The brainiest Battletoad™ began life as MORGAN ZIEGLER, a twenty year old Games Tester for the multi-national PSICONE CORPORATION.

Due to a virus in the prototype 'mind game' BATTLETOADS™, which Ziegler was testing, he was transformed into a humongous, 3D computer graphic called ZITZ™

Profile: ZITZ™ is a natural leader, relying on brains rather than brawn to extricate himself and his buddies from life-threatening situations. Sometimes, however, he relies a little too much on brainpower and not enough on spontaneous, physical action. Fortunately, this failing is more than made up for by the other two members of the Battletoads™ team

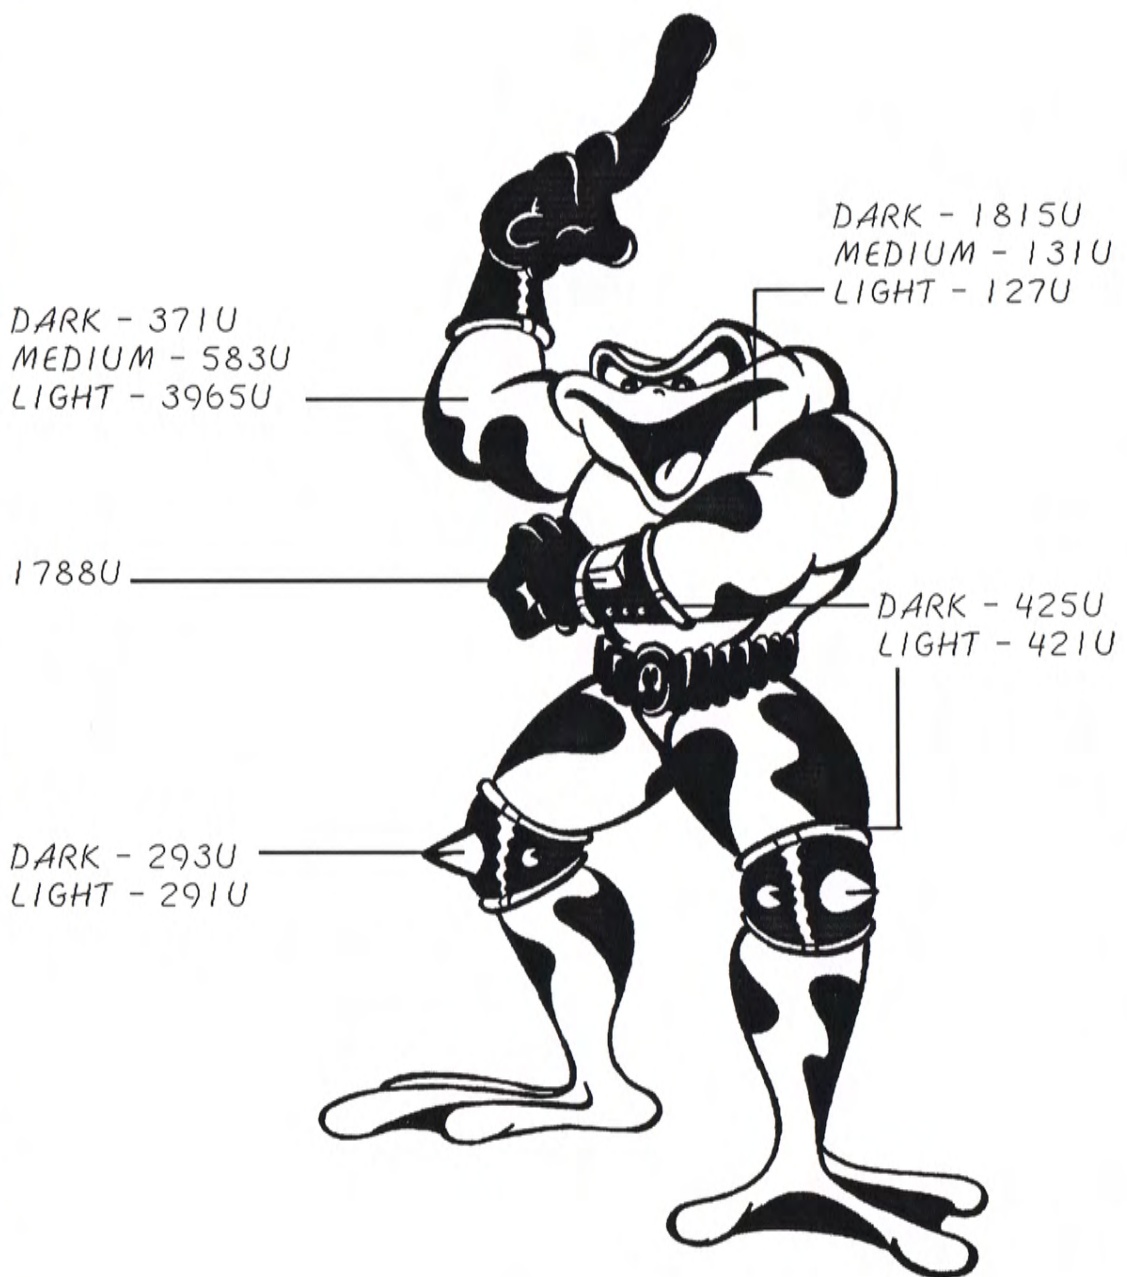

PANTONE COLOURS - ZITZ

RASH™ is the craziest of the bunch - supercool and yet prone to uncontrollable 'physique displays' which act as a sort of early-warning system whenever the Battletoads are threatened.

BATTLETOADS™ FACT FILE

Name: RASH™ **Age:** 'Not too young to boogie,
not too old to rock n' roll!'

Height: 6' 3" **Weight:** 243 lbs **Hair:** None

Eyes: Amphibian

Outstanding features: Mega-physique(he says); wears sunglasses, Ninja-style ribbons and studded knee-pads

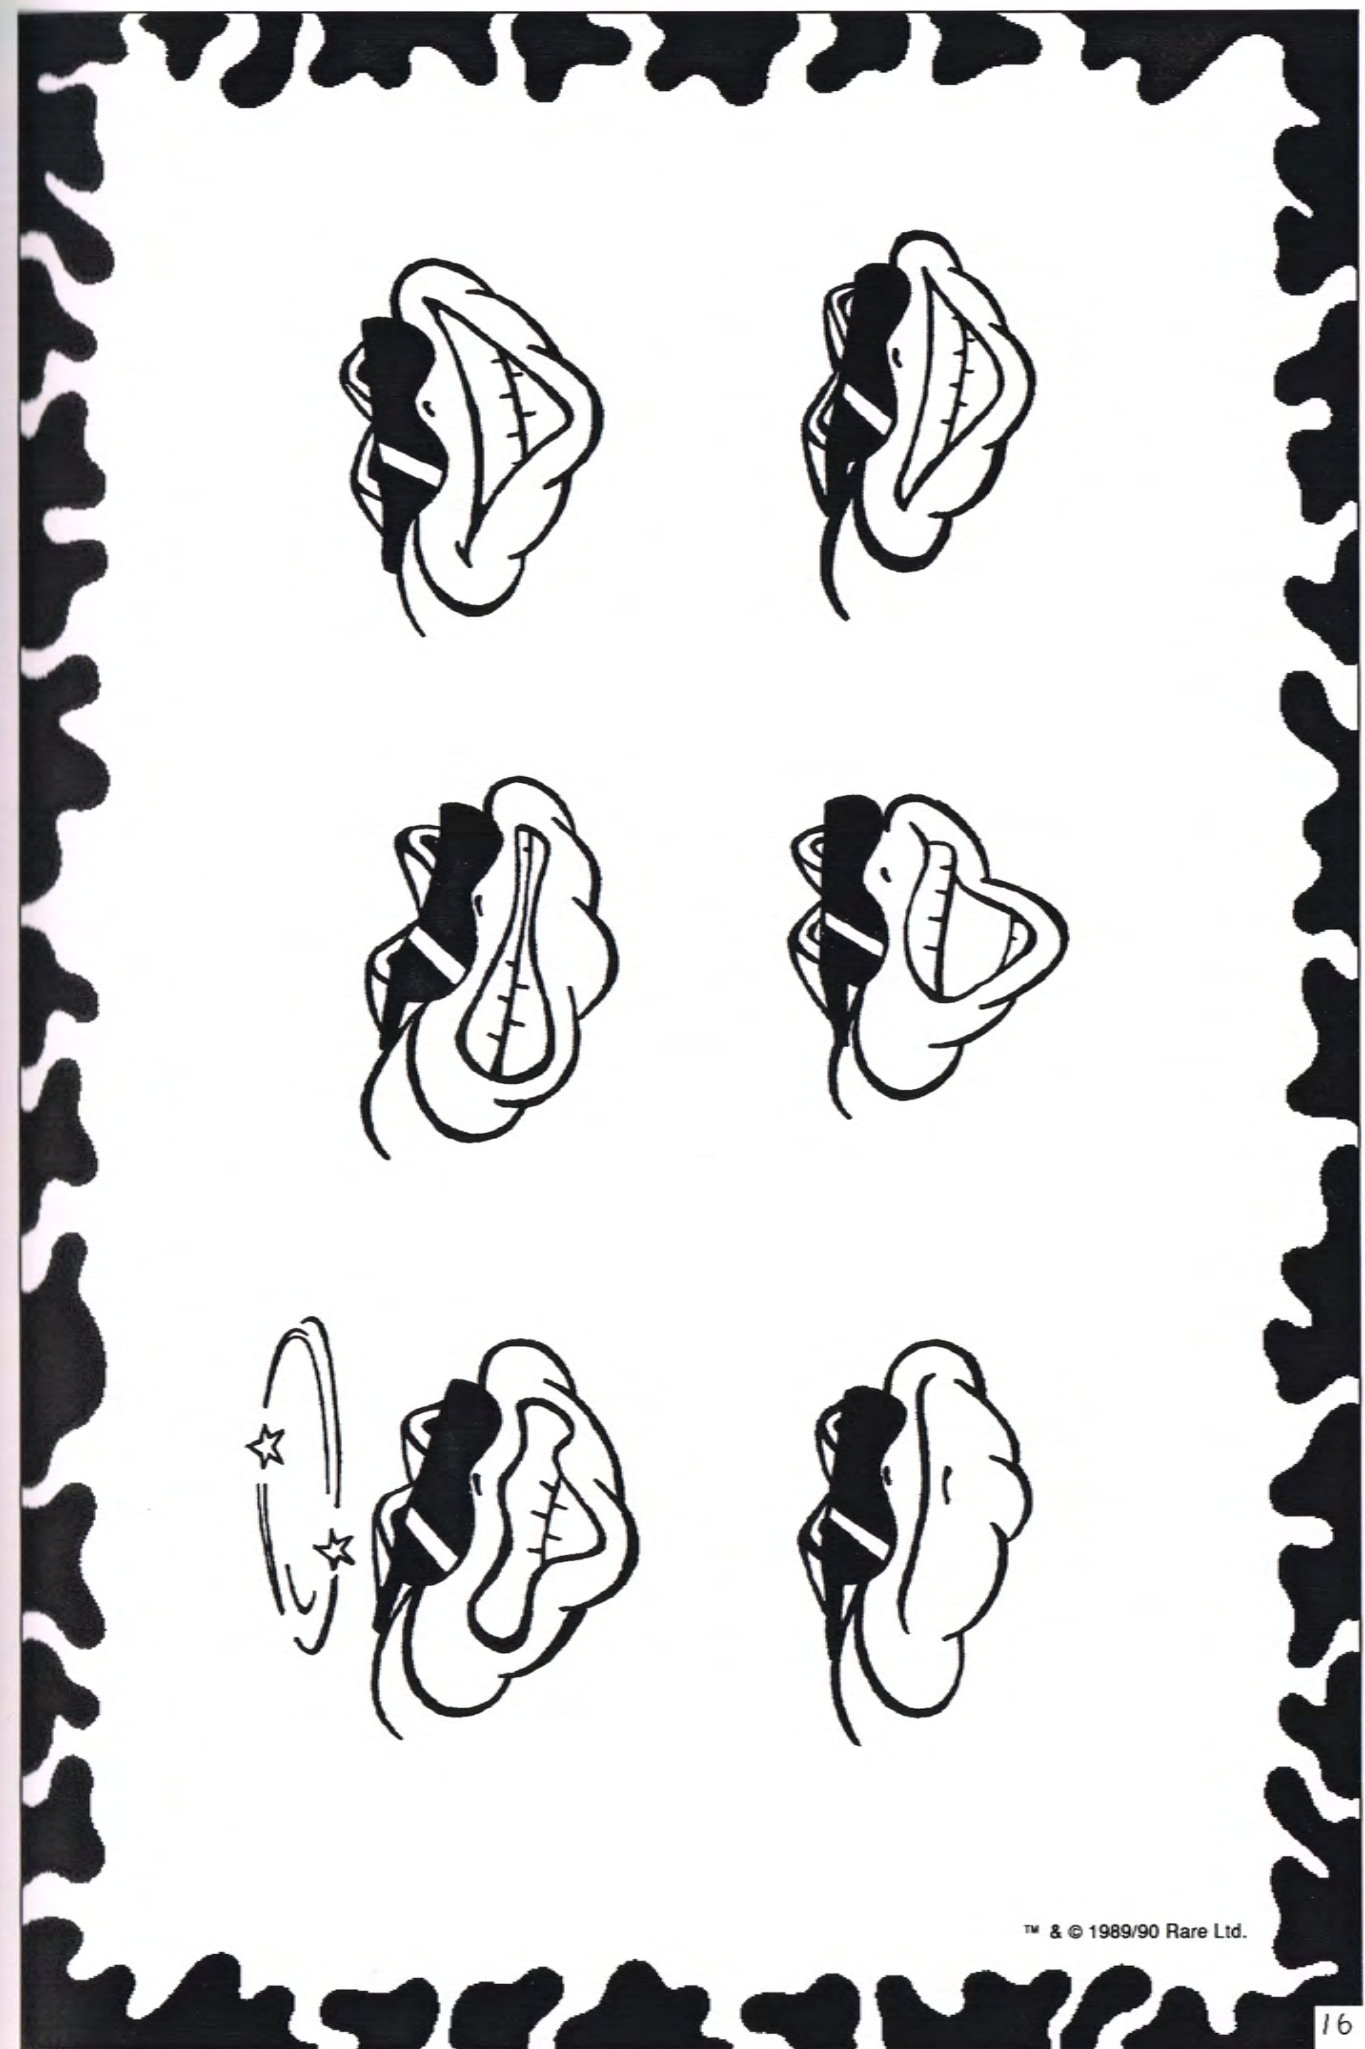

History: The most beautiful (he says) Battletoad™ began life as DAVE SHAR, a seventeen year old Games Tester for the multi-national PSICONE CORPORATION.

Due to a virus in the prototype 'mind game' BATTLETOADS™, which Shar was testing, he was transformed into a humongous, 3D computer graphic called RASH™

Profile: RASH™ is perhaps the most likeable of all the 'toads - and the most annoying too - his overconfidence grating on the nerves at times.

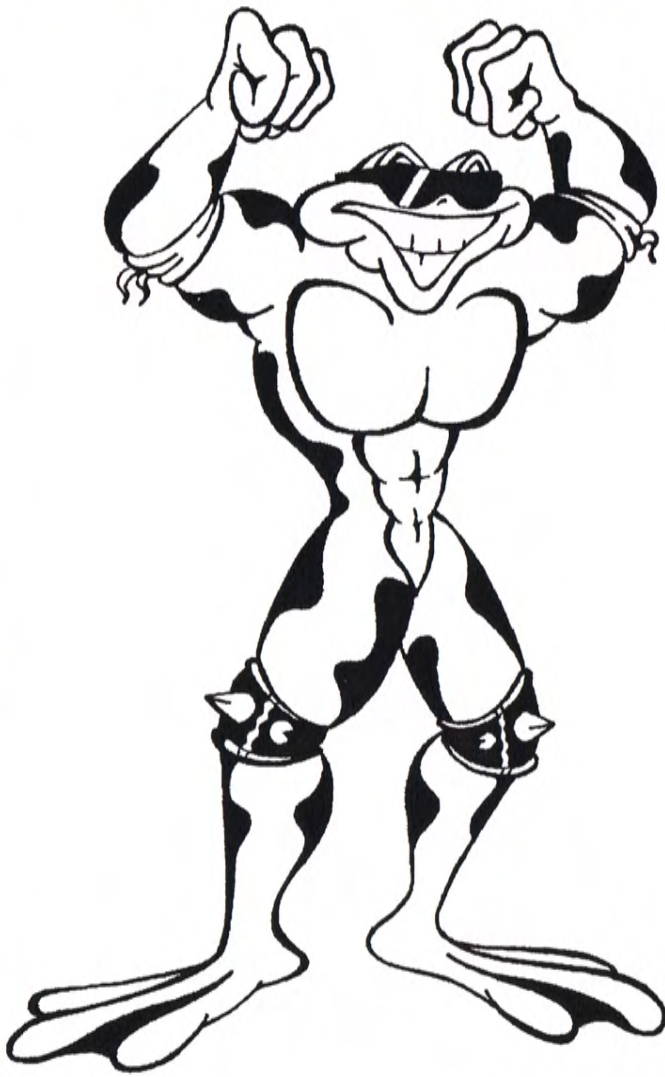

Due to the obsession of his alter-ego, Dave Shar, with pumping-iron, RASH™ has an in-built early-warning system that takes the form of a bodybuilder's physique display and arises whenever the group is threatened.

RASH™ is the joker in the Battletoad™'s pack; he can make light of even the most deadly situation and this serves to boost morale, sometimes to the extent that the group attains a false sense of security and becomes foolhardy in the face of dangerous odds. This is usually tempered, however, by ZITZ™'s coolheaded logic.

*PIMPLE™ is the biggest Battletoad -
a bit slow on the uptake but, as Rash is
always telling him: "Where brainpower falls,
bruteforce prevalls!"*

BATTLETOADS™ FACT FILE

Name: PIMPLE™ **Age:** (?) **Height:** 7' 4"

Weight: 520 lbs **Hair:** None **Eyes:** Amphibian

Outstanding features: Absolutely humongous; wears studded wristbands and knee-pads

History: The biggest Battletoad™ began life as GEORGE PIE, a nineteen year old Games Tester for the multi-national PSICONE CORPORATION.

Due to a virus in the prototype 'mind game' BATTLETOADS™, which Pie was testing, he was transformed into a humongous, 3D computer graphic called PIMPLE™

Profile: Although he is not exactly the smartest Battletoad™ PIMPLE™ more than makes up for his lack of brainpower with his phenomenal physical strength.

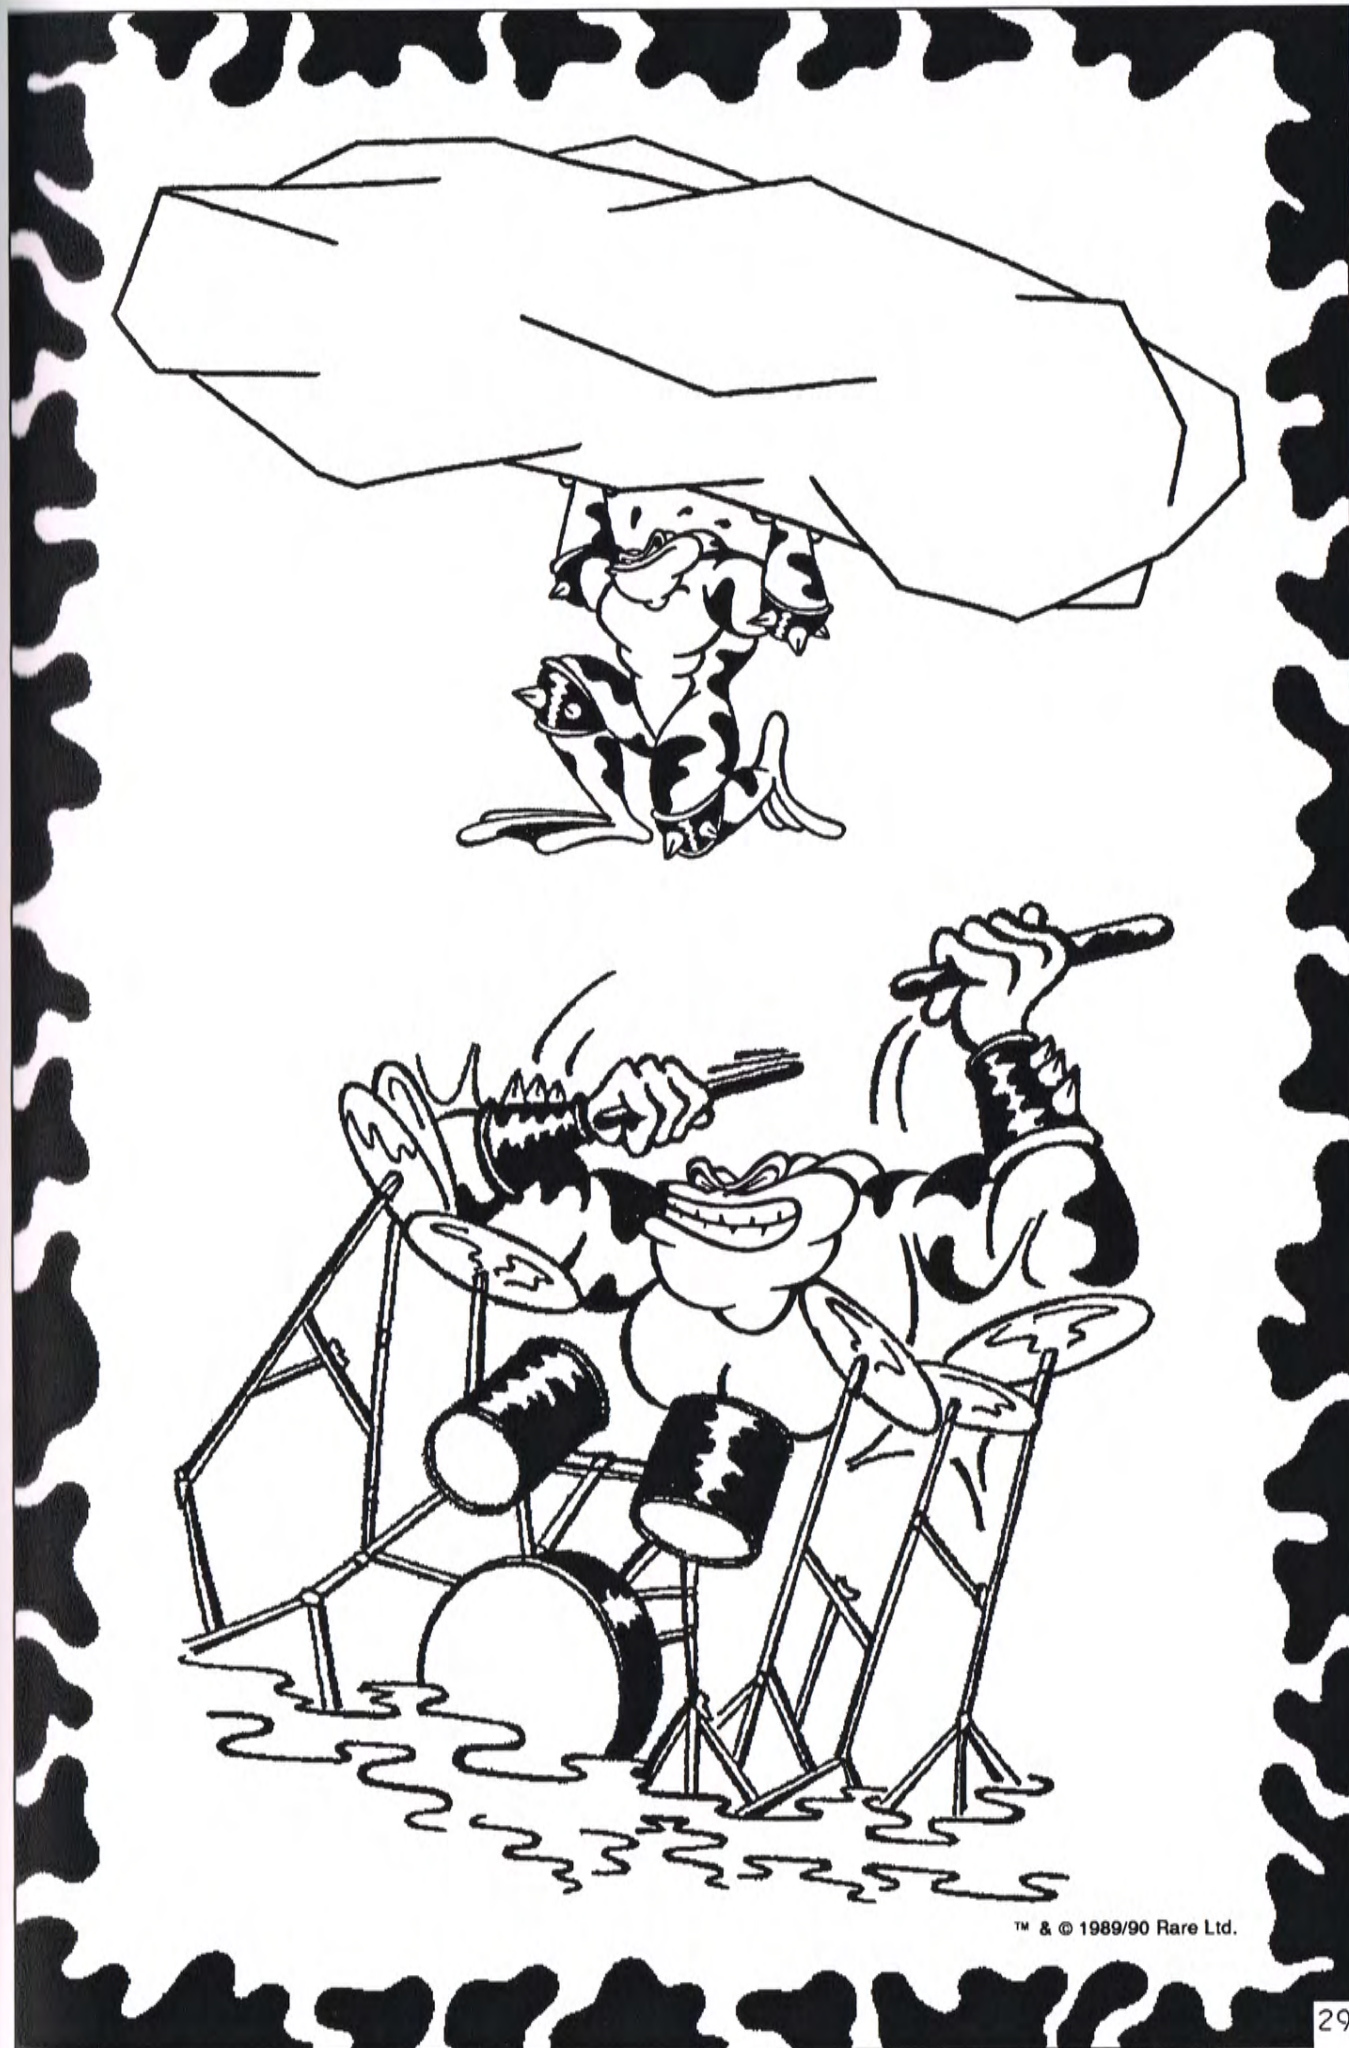

Whenever Herculean feats are required, PIMPLE™ is the guy to call. He's a gentle giant most of the time - but watch out if you should happen to hurt any of his friends - then he's liable to turn real mean

PROFESSOR T. BIRD™ He's the Battletoads' savior and mentor - an enigmatic figure, whose eccentric appearance belies a razor-sharp intelligence and a mysterious past.

BATTLETOADS™ FACT FILE

Name: PROF. T. BIRD™

Age: Immortal

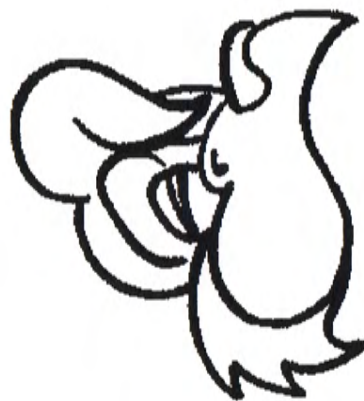

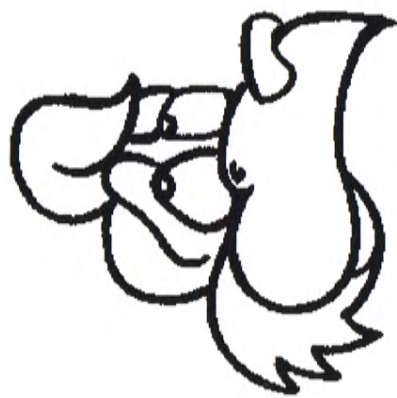

Height: 4' 6" **Weight:** 112 lbs **Feathers:** White

Eyes: Avian

Outstanding features: 'What could be more outstanding than a vulture wearing a lab-coat?'

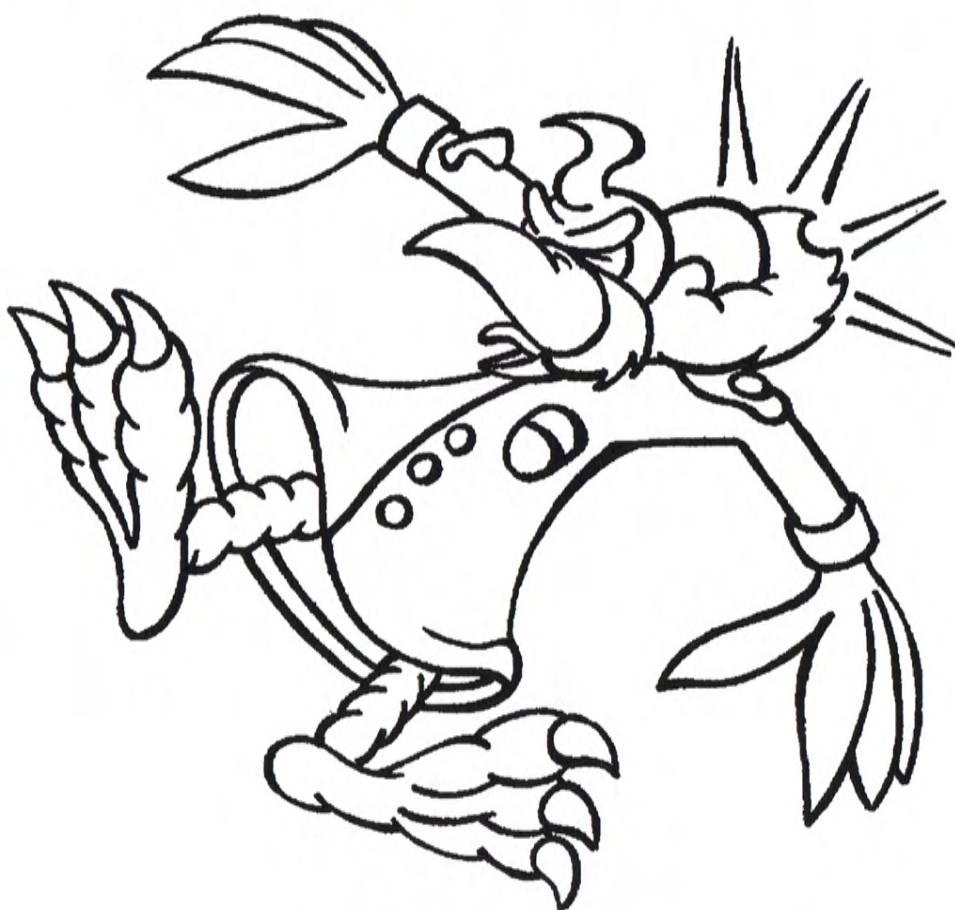

History: Unknown

Profile: Affectionately known as the 'coach', he is the Battletoads' mentor. His harmless, bumbling exterior conceals an enormous intelligence and a stupendous magical talent. These skills are more than a match for the DARK QUEEN™'s, but, unlike her, he has renounced their use, preferring science and logical thought - as does his protege' ZITZ™ - to get him out of trouble.

PANTONE COLOURS - PROFESSOR

THE DARK QUEEN™ has an unquenchable thirst for power: the Professor's nemesis, her ambition is to destroy him, ransom the Princess Daphne, and rule the universe (not necessarily in that order).

BATTLETOADS™ FACT FILE

Name: DARK QUEEN™ **Age:** Immortal (but
looks to be in
her mid-twenties)

Height: 6' in her stilettos **Weight:** 126 lbs

Hair: Black **Eyes:** Icy blue

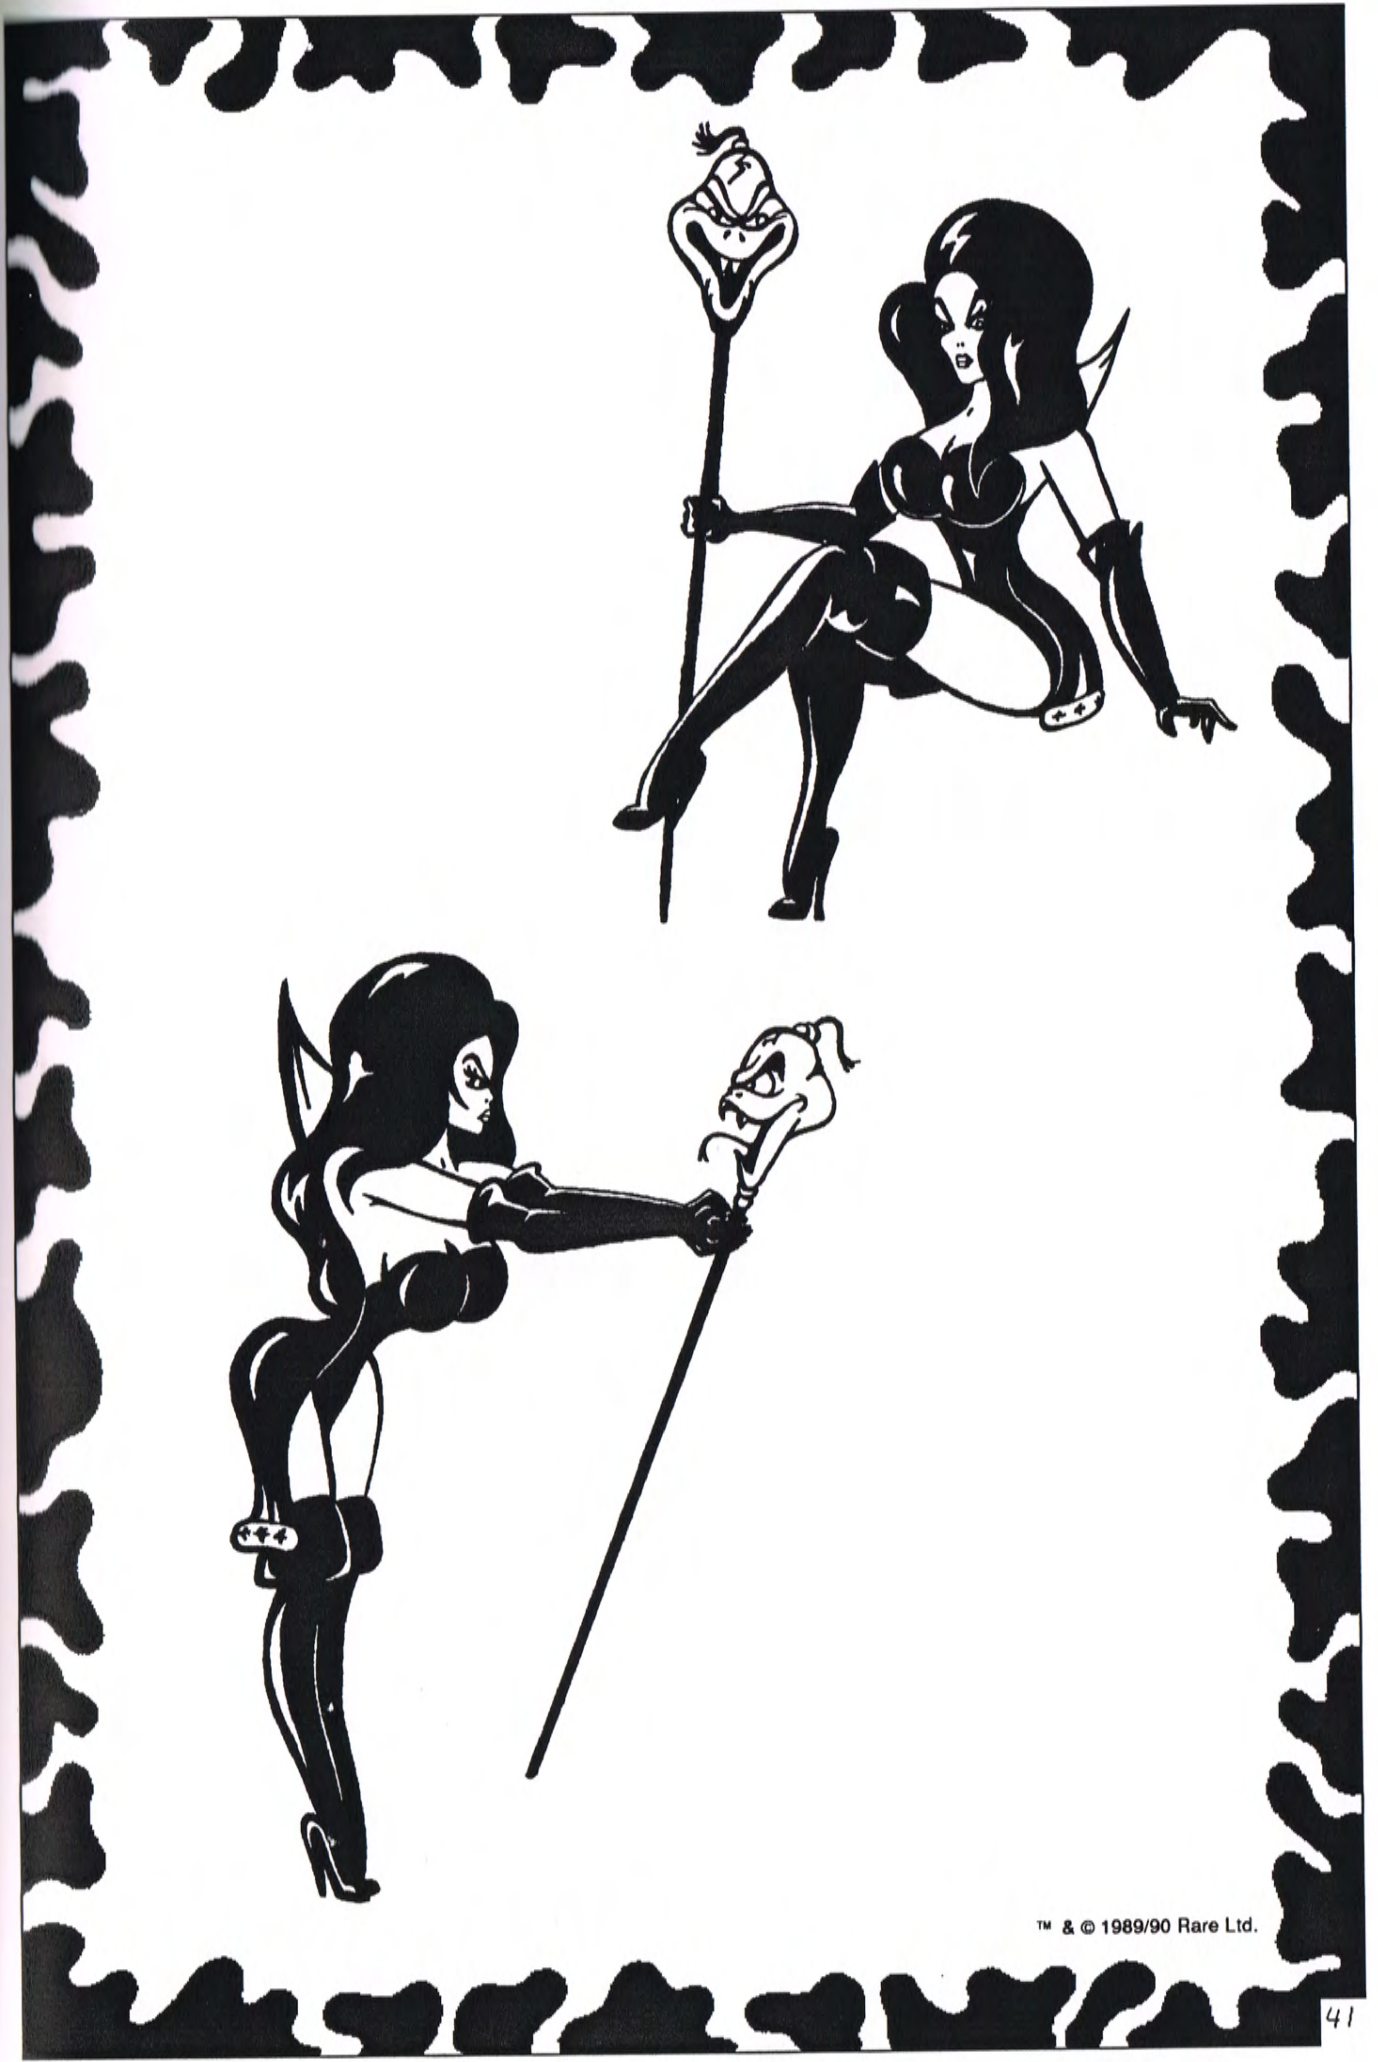

Outstanding features: No comment

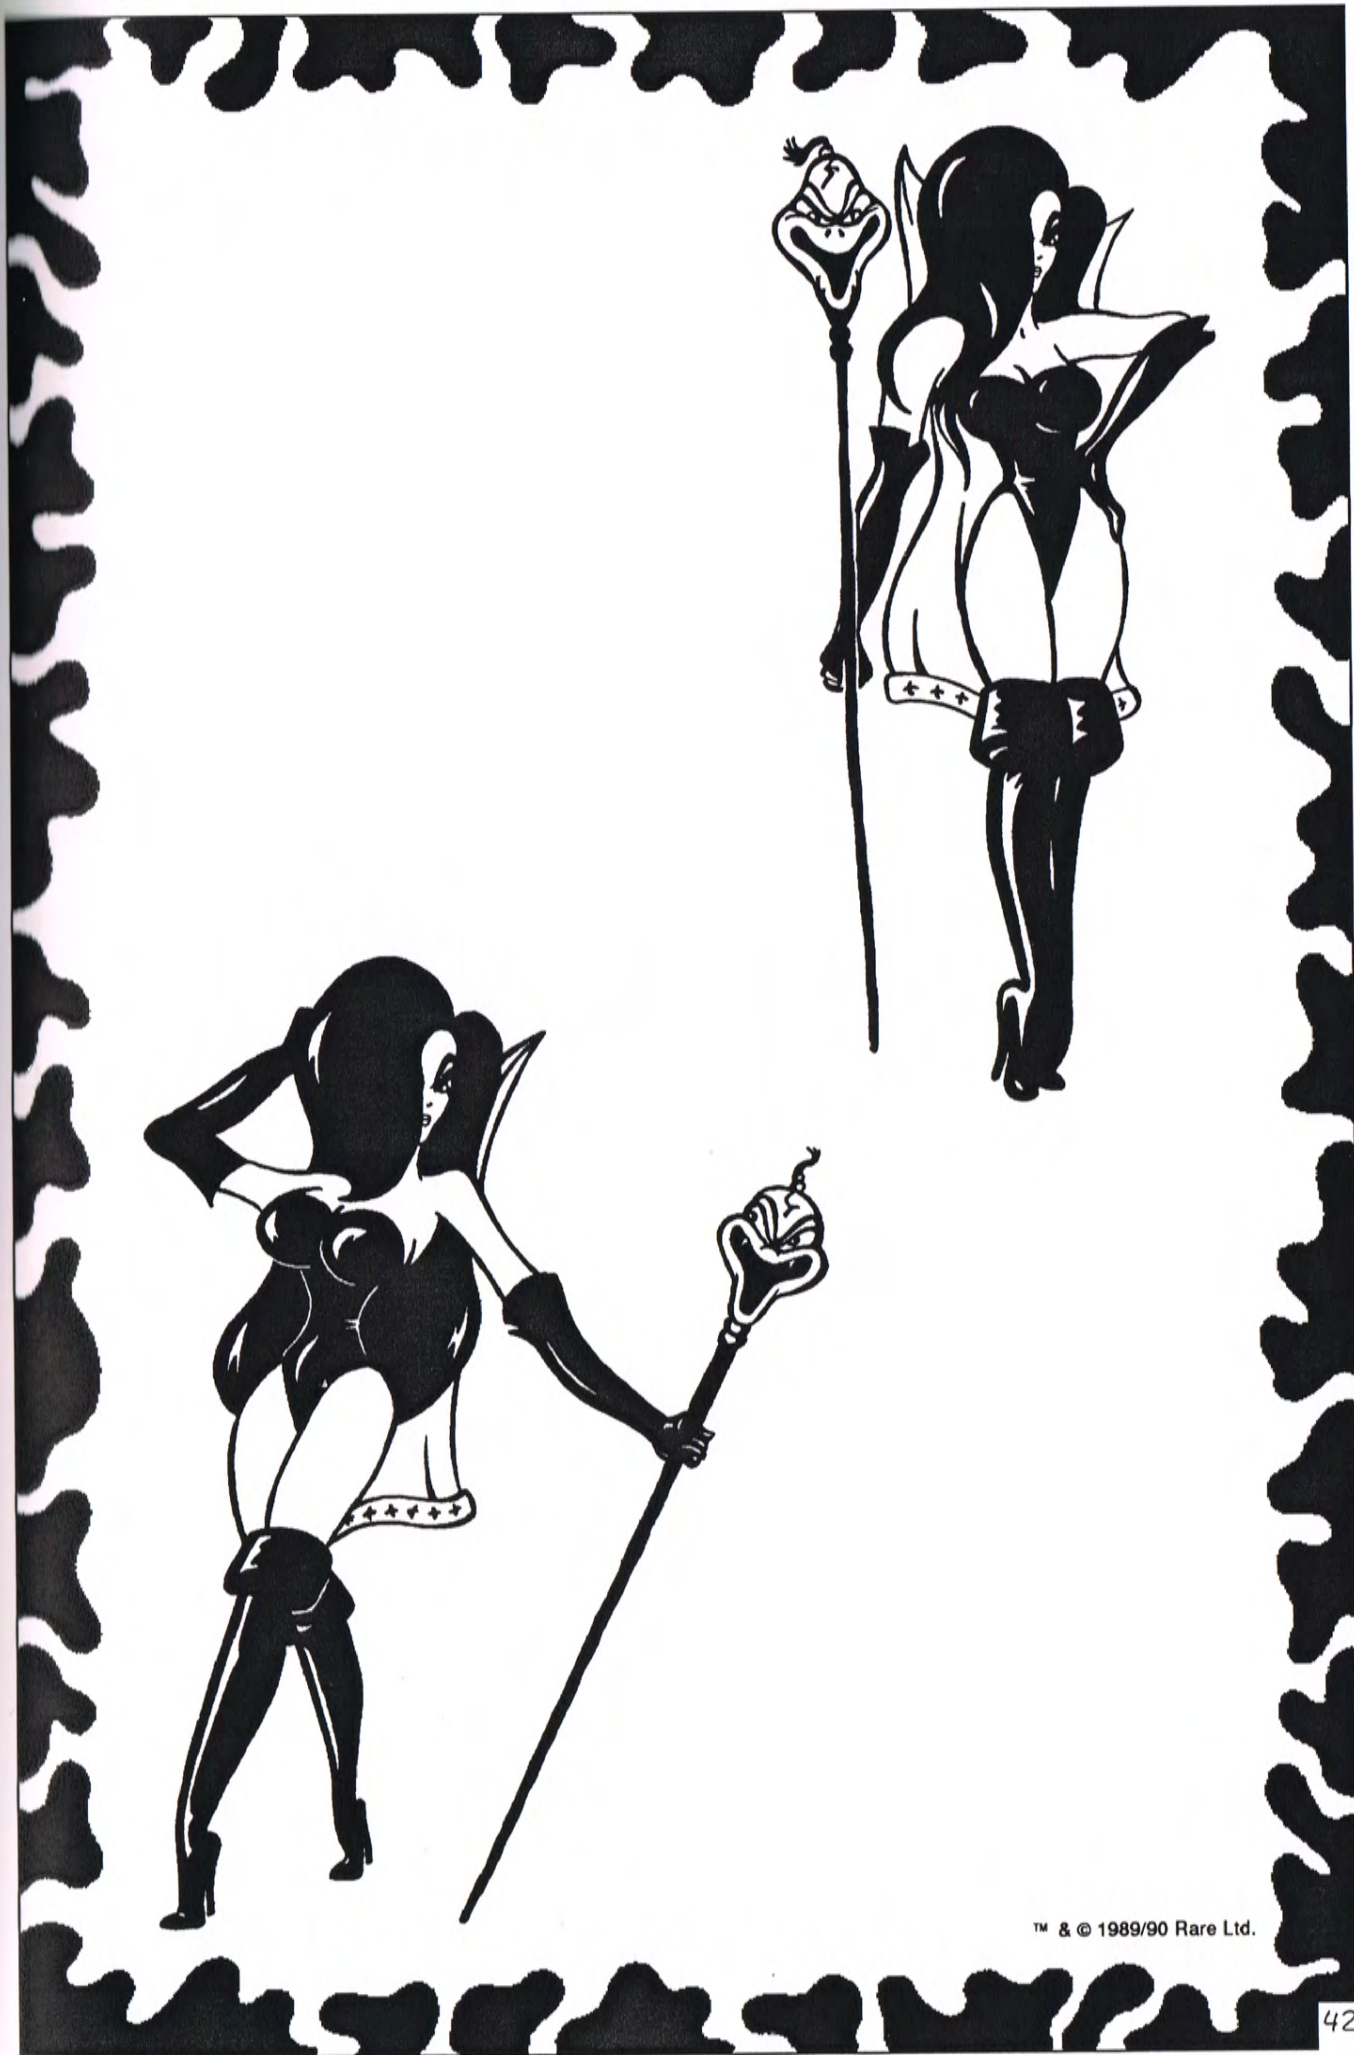

History: Unknown

Profile: The DARK QUEEN™ is a highly dangerous megalomaniacal psychopath.

She uses her magical talents and her dark and terrible beauty to her advantage - and many a man has fallen foul of their combined effects.

Her 'life quest', as she calls her vicious lust for power, is to claim, what she has deluded herself into believing, is her rightful place on the Terran Corporate Throne. She will stop at nothing to achieve this end and has destroyed entire solar systems - millions of lives - in her relentless drive for galactic, and ultimately universal, domination.

*PRINCESS ANGELICA™ falls
into the Dark Queen's dreadful clutches - will
the Battletoads rescue her before she succumbs
completely to the evil one's spell?*

BATTLETOADS™ FACT FILE

Name: PRINCESS ANGELICA™

Age: 18

Height: 5' 6"

Weight: 105 lbs

Hair: Blonde

Eyes: Cornflower blue

Outstanding features: Radiantly beautiful

History: The PRINCESS ANGELICA™ is a Starchild of the Blood - a title inherited by those who are born with magical powers. In order to learn how to use these powers, the Starchildren must 'come of age' on Angelus, Planet of Power. It is whilst on her way there that the PRINCESS ANGELICA™ is kidnapped by one of the DARK QUEEN™'s agents and from then on, only the BATTLETOADS™ can save her.

Profile: Outwardly, she is the archetypal innocent - as beautiful and as fragile as a budding flower. But, appearances can be deceptive, and beneath her seemingly perfect surface there lurks a darkness waiting to be unleashed.
